

The
pool of your
Dreams...

A home swimming pool is a delight, and a luxury that we all deserve 365 days a year. Never before has pool ownership been more attainable, and with our assistance, the pool of your dreams could be well within your grasp.

Whitewaters
POOLS HOTTUBS SAUNAS

Introduction

Installing a swimming pool at home does not need to be a daunting prospect. Whitewaters are here to guide you through the process, step by step, and help you to make all the right decisions along the way.

We are equally happy to undertake the full project, to undertake the specialist aspects of the build only, or to design and supply your pool for a DIY installation.

Professional Service

After an initial consultation with our ISPE registered consultant, our design team will make all of the necessary calculations in accordance with industry standards and our own internal design parameters. Our CAD draftsman will produce detailed drawings for your guidance, and for the use of your architect, and any other trades on site. We pride ourselves not only on our level of expertise, but also on our customer service and project management skills, meaning that you feel accompanied every step of the way.

Choices

There will be a number of decisions to make, some will be dictated by personal preference, and others by more practical influences such as site access and budget. With our advice and guidance, you can be confident that you are making an informed choice every time.

Some of the fundamental areas that need to be considered relate to the style of pool, i.e; deck level or skimmer; the size, shape and depth, method of construction and internal finish, i.e; vinyl liner, tiled or rendered, and accessories such as automated plant and pool covers.

Value for money

A swimming pool does not need to cost the earth, and you may be surprised at how inexpensive the whole project can be. With such a wide range of pool systems at our disposal, you can be sure that we will arrange a scheme to suit your budget.

We are happy to split the project into several packages, allowing a competent DIYer or self builder to undertake some of the work themselves. This is a good way to reduce the cost of the works, whilst retaining our services for the more specialist aspects of the build.

PLANT ROOM

The pool of your Dreams...

OPTIONAL EXTRAS

From fibre optic lighting to liquid blankets, major advances have been made in swimming pool equipment in recent years. We are pleased to offer a comprehensive range of optional extras representing the very cutting edge of swimming pool technology.
